Stainless Steel Connection system

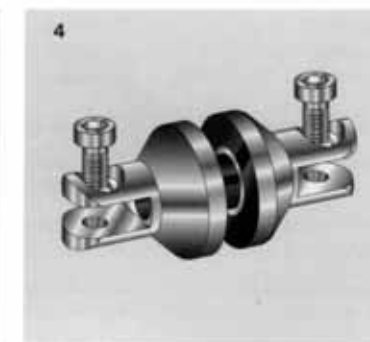

The system approach is very much in evidence in the case of the interconnecting components. Elements such as clamping and angle connectors of various designs and also interconnecting fasteners of various lengths can be combined in order to attach glass of different thicknesses at any required angle to the floor, to ceilings, to walls and to plinth supports. Single-point fixings flush with the glass are also used for this interconnection and glass-to-glass system. Tolerances are compensated by slotted holes in the interconnecting fasteners.

Ordering information

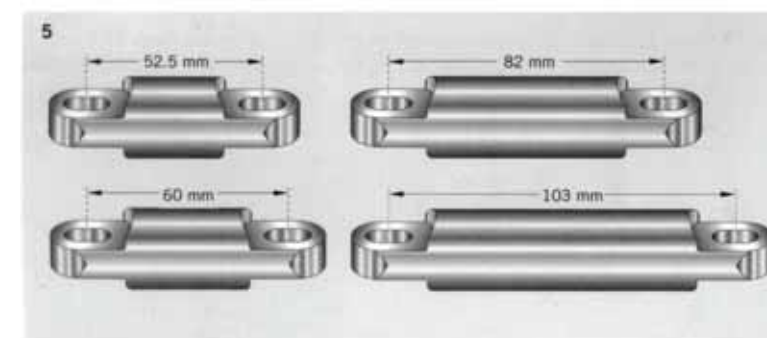

1
Pivoting glass clamp
Glass thickness 8–12 mm
Glass thickn. 17.5–21.5 mm

2
Pivoting wall fixing

3
Column
Ceiling/floor fixing

4
Clamping connector
Glass thickness 8–12 mm

5
Connecting rod
Length 52.5 mm
Length 60 mm
Length 82 mm
Length 103 mm

Connection system Stainless Steel 304/316

Stainless Steel Connection system

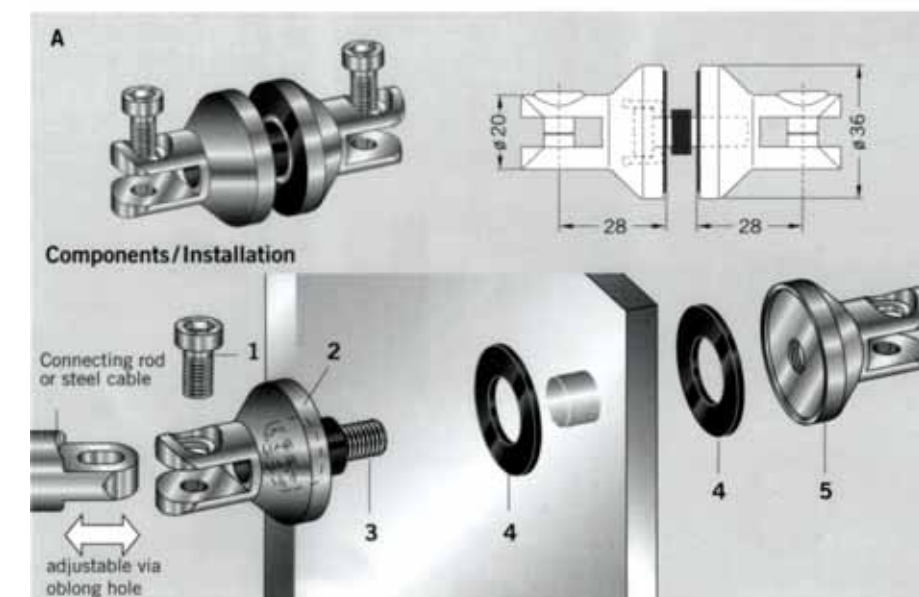

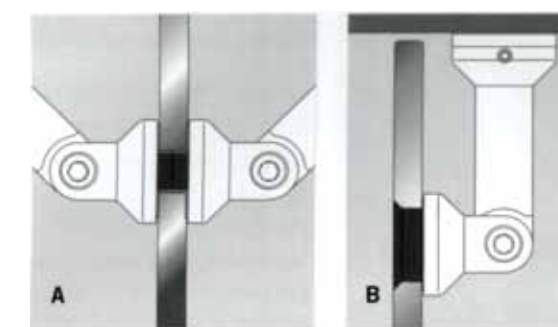

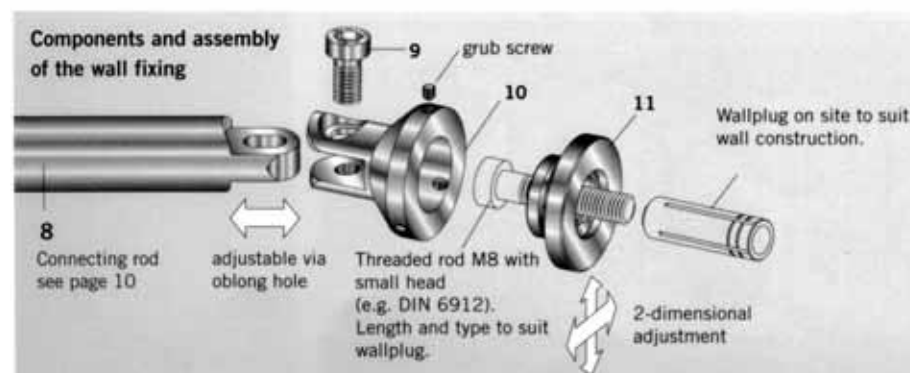

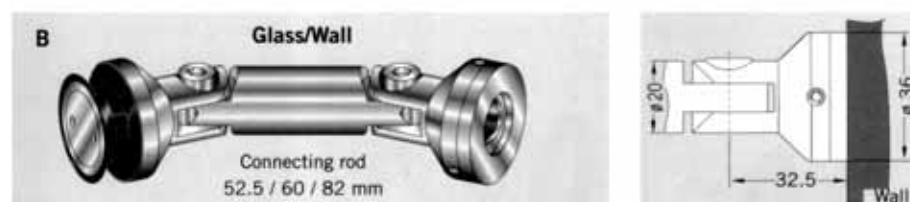

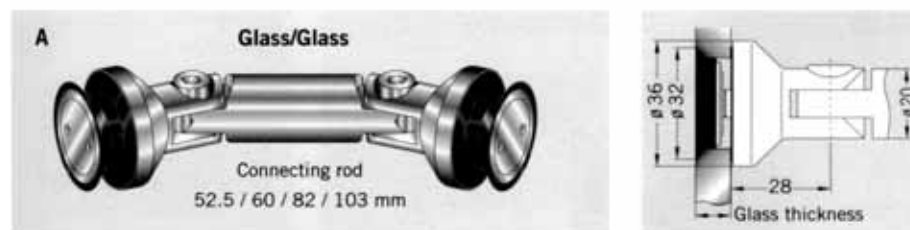

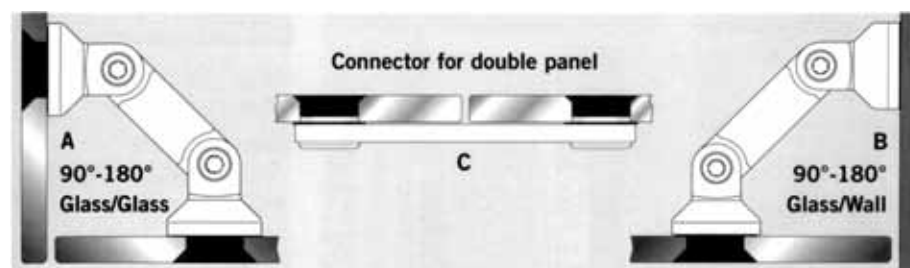

Ordering information

A
Complete fitting glass/glass
8–12 mm glass thickness
52.5 mm
With connecting rod
60 mm
With connecting rod
82 mm
With connecting rod
103 mm

B
Complete fitting
glass/wall
8–12 mm glass thickness
With connecting rod
52.5 mm
With connecting rod
60 mm
With connecting rod
82 mm

Components

- 1 Conical collar
- 2 Conical sleeve
- 5 Gasket
- 6 Pivoting clamp
- 7 Connecting bolt
- 8 Connecting rod to suit length
- 9 connecting bolt
- 10 Pivoting clamp
- 11 Fixing plate

Ordering information

A
Clamping connector
Complete fitting
glass thickness 8–12 mm
B
Corner connector 90°
Glass/ceiling, Glass/floor
connection
Complete fitting
Glass thickness 8–12 mm
(only supporting function)

Components

- 1 connecting bolt
- 2 Pivoting clamp
- 3 Connecting bolt
- 4 Gasket
- 5 Pivoting clamp
- 6 Fixing plate
- 7 Column

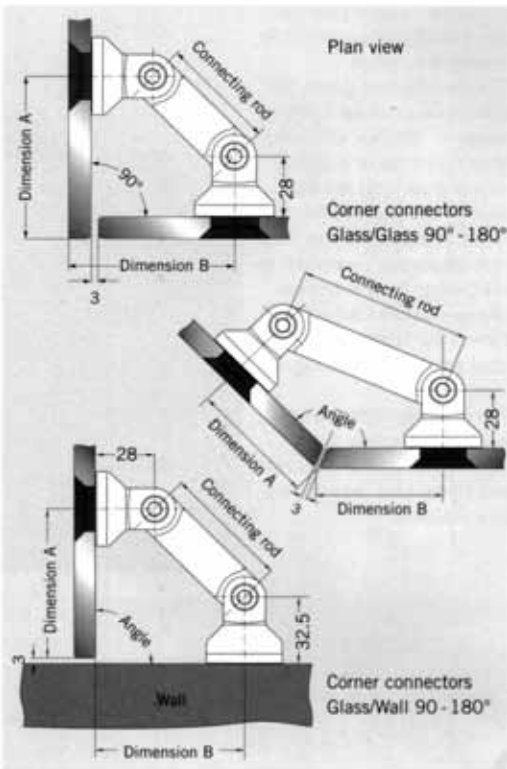

Connection system

Stainless Steel 304/316

Stainless Steel Shower Room Series

For ESG and VSG out of ESG.
